ABOUT

TR Ege Vitrikiye, 1994 yılında İzmir’de kurulmuş olup, seramik sağlık gereçleri alanında yenilikçi çözümler sunarak modern banyo kültürünün şekillendiren öncü markalardan biri haline gelmiştir. Fonksiyonellik, dayanıklılık ve estetik değerleri bir araya getiren ürünleriyle, hem yurt içi hem de yurt dışı pazarlarda güvenle tercih edilmektedir.

Ürün portföyümüzde; lavabolar, alaturka tuvaletler, klozetler, bideler, rezervuarlar, pisuvarlar, ayaklar ve tamamlayıcı aksesuarlar yer almakta olup, geniş bir kullanım alanına hitap eden modern, şık ve kullanıcı dostu çözümler sunulmaktadır.

59.000m² alan üzerine kurulu, 41.600m²’si kapalı alana sahip fabrikamızda, yılda 1.400.000 adet üretim kapasitesiyle, en ileri teknolojiyle donatılmış modern üretim süreçleri yürütülmektedir. Bu altyapı sayesinde, Ege Vitrikiye dünyanın en gelişmiş üretim merkezlerinden biri olarak sektöre yön vermektedir.

Ege Vitrikiye, kalite ve sürdürülebilirlik alanında uluslararası standartlara tam uyum sağlayarak önemli belgelere sahiptir. ISO 9001 Kalite Yönetim Sistemi, ISO 14001 Çevre Yönetim Sistemi, ISO 10002 Müşteri Memnuniyeti Yönetim Sistemi, ISO 27001 Bilgi Güvenliği Yönetim Sistemi, ISO 50001 Enerji Yönetimi Sistemi, Double Stars Kalite Sertifikaları ve Yetkilendirilmiş Yükümlü Statüsü (YYS) ile tasarımdan üretime, tesis yönetiminden hizmet süreçlerine kadar her alanda kaliteyi güvence altına almaktadır.

Ayrıca, TSE belgesine ek olarak, Avrupa ve dünya standartlarına uygunluğu ile Fransa’dan NF, Almanya’dan TÜV Rheinland, Hollanda’dan KIWA, Amerika ve Kanada’dan ASME standardı ES-ICC ve Avustralya’dan WATERMARK gibi saygın uluslararası kuruluşlardan da sertifikalara sahiptir.

Bugün Ege Vitrikiye, 50’den fazla ülkede 70’in üzerinde müşteriye ulaşan global dağıtım ağı ile dünya çapında güvenilir bir marka konumundadır. Türkiye genelinde ise 110’dan fazla perakende satış noktası, bir yapı market (DIY) ve kullanıcı deneyimini güçlendiren bir showroom ile müşterileriyle buluşmaktadır.

İnovasyon, sürdürülebilirlik ve müşteri memnuniyeti ilkeleriyle hareket eden Ege Vitrikiye, yaşam alanlarında kalite ve konforu ön planda tutarak, banyolarda sağlıklı, estetik ve çağdaş çözümler sunmaya devam etmektedir.

EN Ege Vitrikiye was established back in 1994 in İzmir, Türkiye, and it has since become known as one of the leading brands involved in the production of ceramic sanitary ware, and it offers up revolutionary solutions able to shape modern bathroom culture with functionality, durability, and aesthetic excellence.

Our wide-ranging product portfolio does include washbasins along with Western-style toilets also with squat toilets (Turkish-style). Included also are bidets, cisterns, urinals, pedestals, and many complementary accessories. These products are designed for meeting the varied needs of both domestic along with international markets because they combine contemporary design with user comfort plus environmental sensitivity.

Our factory operates in a facility spread across 59,000 square meters with 41,600 square meters of covered space, and produces 1,400,000 units annually. Being fully equipped with cutting-edge technology, it efficiently produces high quality products and it stands as one of the most advanced production centers in the world during every stage of manufacturing.

Ege Vitrikiye’s commitment to international standards is evident in its certifications. The company holds the ISO 9001 Quality Management System, ISO 14001 Environmental Management System, ISO 10002 Customer Satisfaction Management System, ISO 27001 Information Security Management System, ISO 50001 Energy Management System, Double Stars Quality Certificates, and Authorized Economic Operator (AEO) Status.

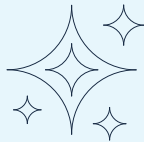

These certifications reflect our dedication to excellence across design, product development, production processes, facility operations, and customer service.

In addition to the TSE (Turkish Standards Institution) certification, our products meet European and global standards, and are certified by reputable institutions including NF (France), TÜV Rheinland (Germany), KIWA (Netherlands), ES ICC (America, Canada) and WATERMARK (Australia).

With a global distribution network reaching over 70 customers in more than 50 countries, Ege Vitrikiye is a trusted name worldwide. Domestically, we serve our customers through a strong presence of more than 110 retail stores, a prominent DIY superstore, and a centrally located showroom—ensuring accessibility and close interaction with end users.

As a brand rooted in innovation, sustainability, and customer satisfaction, Ege Vitrikiye continues to set new standards in the sanitary ware industry—offering smart, elegant, and hygienic solutions for a better quality of life in bathrooms around the world.

sustainable

quick release

easy close

easy to clean

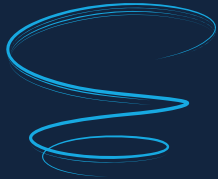

AquaSave significantly reduces water consumption during flushing, lowering it from **6 liters to just 4 liters per flush**. This is achieved through a specially designed ring system that efficiently directs water flow and a unique siphon structure that ensures the rapid removal of waste.

AquaSave-equipped toilets provide effective cleaning with less water, promoting both environmental conservation and cost savings over time.

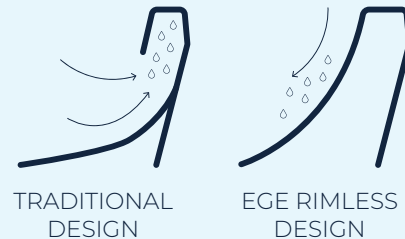

"Active Hygiene" washbasins and toilets offer advanced hygienic protection, verified by accredited laboratories. Their antibacterial particles, embedded at the nanoscale and sintered for lifelong effectiveness, help maintain cleaner surfaces.

As an eco-friendly material, it ensures safer environments in schools, healthcare facilities, restaurants, hotels, and daycare centers by actively preventing the growth of harmful microbes.

SPINFLUSH

WC pans with spin flush feature provide **60%** water savings, while contributing to the creation of healthy bathroom and toilet areas with their **hygienic channel structure**. It offers quiet usage comfort thanks to its special design that minimizes the flushing sound of the toilet bowl.

What is a Rimless Toilet?

A rimless toilet refers to the latest flushing technology where the traditional "rim" has been completely removed. In conventional "box rim" designs, a bordered edge at the top of the toilet bowl directs water evenly downward during flushing.

One of the biggest advantages of a rimless toilet is its superior hygiene. Since there is no rim, the entire bowl is exposed, making it much easier to clean.
